Tops Technologies, Rajkot.

PROJECTS & EXPERIENCE

Skinify - Developer

May 2025 - Present
Developing a C#-based desktop application that helps users manage skincare routines by analyzing skin type, product ingredients, and daily usage patterns. Implemented UI features using Windows Forms and integrated logic for personalized recommendations.

Online Diagnostic Lab Reporting - Upcoming.

Preparing to develop a web-based system aimed at simplifying diagnostic lab reporting. The project will focus on digitizing test result entry, automating report generation, and enabling secure sharing with patients and doctors. Initial planning involves choosing suitable frameworks, designing user-friendly input forms, and outlining data flow between modules to ensure accuracy and scalability.
